**Polytechnic College, Indapur.**

**Department of Mechanical Engineering**

**HOD MESSAGE**

Mechanical Engineering is one of the oldest and broadest of engineering disciplines. It emerged as a field during the Industrial revolution and has continually evolved by incorporating numerous technical advancements. Mechanical engineers today use core principles of mechanics, thermodynamics and structural analysis with computer aided tools to design and analyze manufacturing plants, industrial equipment, heating and cooling systems, motorized vehicles, aircrafts, robotics, medical devices and much more. Demand for professionals in this conventional discipline can never cease.

I welcome all the students of my department to a career of opportunities & success.
