Office Order

Institute-Industry Cell (IIC)

An ongoing interaction between the Industry and Institute is an essential factor in academia. To strengthen the relationship between industry and our institute, the Industry-Institution Cell is established in the college, that provides an excellent platform for both the students and the faculties to be aware of industry expectations from the diploma graduates. The IIC serves as a platform to showcase the best practices, latest technologies in industry and their implementation.

It also promotes industry experts to continuously partake in curriculum design and career development programs which play a significant role in refining the skill set of the students inclined towards the expectations of the industry. To scale up the academia in the Global knowledge index, ample industrial exposure is provided to the faculty members and students to enhance the teaching learning process and enable the Institution to produce quality students in turn.
